Polishes in **dark gray** do not feature any waxes, silicones, or polymers designed to hide defects or protectant the paint.
Polishes in **pure blue** contain a wax or synthetic sealant and are designed to protect the paint as well as remove defects or oxidation. These are all-in-one products.
Polishes in **bright purple** are designed to hide or fill paint defects. They may or may not be abrasive depending on their placement in the chart.

Note: This chart is provided for reference only. Many factors, not limited to, but including paint type, machine type, technique, and enivronmental will effect results.
